

SUBJECT: EVALUATING EXISTING BUILDINGS

All BOCES facilities will be evaluated annually to ensure that school buildings and service centers not only meet safety and building code requirements but also operate in such a manner as to achieve the desired educational programming and outcomes.

The District Superintendent or his/her designee will solicit input from building principals regarding facility changes and remodeling plans. Building principals, in turn, will seek staff input as they develop their recommendations. The District Superintendent shall present to the Board of Education, on an annual basis, school facilities projects reflecting major rehabilitation and remodeling requests.
